WHY?
The Problem

Historic Disinvestment + Limited Voices

“Fresno ranks 59th out of 59 for economic and racial disparity.”
- Urban Institute Study

- 38% of children ages 0-17 live in poverty
- 26% of children ages 0-17 are food insecure
- 24% of Fresno mothers have no HS degree
Every Neighborhood Partnership is a collection of hopeful people who don't accept shortcuts or superficial relationships. Instead, we’re committed to the long-term transformation of Fresno through elevating community voices. The injustices of the past and present demand that we invest in our communities now because the future of Fresno depends on it. Therefore, we are intent on building a thriving community that will transform Fresno and raise up another generation of leaders.
The Literacy Gap

“Decades of underinvestment in schools, culture battles over bilingual education, and stark income inequality have made California the least literate state in the nation”
- Capitol Weekly
